Music in Films on the Middle Ages

Role of music in the some five hundred feature-length films of the Middle Ages produced between the late 1000s and the present day. Haines focuses on the tension in these films between the surviving evidence for medieval music and the idiomatic tradition of cinematic music. The latter is taken broadly as any musical sound occurring in a film, from the clang of a bell off-screen to a minstrel singing his song. Medieval film music must be considered in the broader historical context of pre-cinematic medievalisms and of medievalist cinema’s main development in the course of the twentieth century as an American appropriation of European culture. The book treats six pervasive moments that define the genre of medieval film: the church-tower bell, the trumpet fanfare or horn call, the music of banquets and courts, the singing minstrel, performances of Gregorian chant, and the music that accompanies horse-riding knights, with each chapter visiting representative films as case studies. These six signal musical moments, that create a fundamental visual-aural core central to making a film feel medieval to modern audiences, originate in medievalist works pre-dating cinema by some three centuries.

The Western is America’s definitive contribution to cinema, a bullet-splattered blueprint for the nation’s image of itself and its place in the world. To watch a western is to witness the birth of a nation, overseen by square-jawed sheriffs and steel-nerved gunfighters, armed with six-guns and a clear moral vision. Their victories against outlaws and Indians were proof that might was right — so long as it was in the correct hands. Renegade Westerns shows the shadowy side of this picture, where heroes behaved like villains, where Indians were always the savages we’d been led to expect. From innocence in The Ox-Bow Incident to racism in The Searchers, numerous films criticised the methods behind the myths and the personalities behind the legends. They questioned the simple belief that the destiny of the United States was to expand right across the continent, regardless of the peoples’ claims to the land. The cast of characters includes cynical mercenaries and ageing cowboys, gun-toting cattle queens and teenage outlaws. We encounter western superstars — John Wayne and Clint Eastwood, Gary Cooper and Robert Mitchum — and icons of modern film — Brad Pitt and Samuel L. Jackson, Johnny Depp and Michael Fassbender. More than 100 films are dissected and discussed, from the hidden depths of High Noon and The Man Who Shot Liberty Valance to the ferocity of The Wild Bunch. There are skewed biopics of Billy the Kid and Jesse James, acid westerns and Cold War parables. The book ranges over 70 years of movie-making, right up to the biggest westerns of recent times — The Homesman and Slow West, and a double-barrelled blast of Tarantino: Django Unchained and The Hateful Eight. Complete with a foreword by western expert Edward Buscombe and first-hand accounts by Wild Bunch stars Bo Hopkins and LG Jones, Renegade Westerns offers a fresh perspective on a genre that continues to attract both large audiences and critical acclaim.

In its heyday from the late 1950s until the early 1980s Italian horror cinema was characterised by an excess of gore, violence and often incoherent plot-lines. Films about zombies, cannibals and psychopathic killers ensured there was no shortage of controversy, and the genre presents a seemingly unpronounceable nexus of films for sustained critical analysis. But Italian horror cinema includes all the variations, subgenres and filmi remains one of the most recognisable and iconic genre productions in Europe, achieving cult status worldwide. One of the manifestations of a rich production landscape in Italian popular cinema after the Second World War, Italian horror was also characterised by its imitation of foreign models and the transnational dimension of its production agreements, as well as by its international locations and stars. This collection brings together for the first time a range of contributions aimed at a new understanding of the genre, investigating the different phases in its history, the peculiarities of the production system, the work of its most representative directors (Mario Bava and Dario Argento) and the wider role it has played within popular culture.

The seventies were a decade of groundbreaking horror films. The Exorcist, Carrie, and Halloween were three. This detailed filmography covers these and 225 more. Section One provides an introduction and a brief history of the decade. Beginning with 1970 and proceeding chronologically by year of its release in the United States, Section Two offers an entry for each film. Each entry includes several categories of information: Critical Reception (sampling both ‘70s and later reviews), Cast and Credits, P.O.V., (quoting a person pertinent to that film’s production), Synopsis (summarizing the film’s story), Commentary (analyzing the film from Muir’s perspective), Legacy (noting the rank of especially worthy ‘70s films in the horror pantheon of decades following). Section Three contains a conclusion and these five appendices: horror film cliches of the 1970s, frequently appearing performers, memorable film ads, recommended films that illustrate how 1970s horror films continue to impact the industry, and the 15 best genre films of the decade as chosen by Muir.

Beloved among cult horror devotees for its signature excesses of sex and violence, Italian giallo cinema is marked by switchblades, mysterious killers, whisky bottles and poetically overinflated titles. A growing field of English-language giallo studies has focused on aspects of production, distribution and reception. This volume explores an overlooked yet prevalent element in some of the best known gialli—an obsession with art and artists in creative production, with a particular focus on painting. The author explores the appearance and significance of art objects across the masterworks of such filmmakers as Dario Argento, Lucio Fulci, Sergio Martino, Umberto Lenzi, Michele Soavi, Mario Bava and his son Lamberto.

Mario Master of the Macabre Lucio Fulci is celebrated in this lavishly illustrated in-depth study of his extraordinary films. From horror masterpieces like The Beyond and Zombie Flesh-Eaters to erotic thrillers like One On Top of the Other and A Lizard in a Woman's Skin; from his earliest days as director of manic Italian comedies to his notoriety as purveyor of extreme violence in the terrifying slasher epic The New York Ripper, his whole career is explored. Supernatural themes and weird logic collide with flesh-ripping gore to breathtaking effect. Bleak horrors are transformed into bloody poetry - Fulci's loving camera technique, and the decayed splendour of his art design, make the films more than just a gross endurance test. Lucio Fulci built up a fanatical following, who at last will have another chance to own this epic book - five years in the making - which is the ultimate testament to 'The Godfather of Gore'. Since its first publication in 1999, Beyond Terror has sold out three print runs, and continues to be one of the most frequently requested FAB Press reprints. Without doubt, by far and away the largest collection of Fulci posters, stills, press-books and lobby cards ever seen together in print. We have scoured the Earth to find the most stunning, rare and eye-catching Fulci images. Out of print for ten years, it's back again in 2018, bigger and better than ever! Italian Horror Cinema

The "Gothic" style was a key trend in Italian cinema of the 1950s and 1960s, because of its peculiar, often strikingly original approach to the horror genre. These films portrayed Gothic staples in a stylish and idiosyncratic way, and took a daring approach to the supernatural and to eroticism, with the presence of menacing yet seductive female witches, vampires and ghosts. Thanks to such filmmakers as Mario Bava (Black Sunday), Riccardo Freda (The Horrible Dr. Hichcock), and Antonio Margheriti (Castle of Blood), as well the iconic presence of actress Barbara Steele, Italian Gothic horror went overseas and reached cult status. The book examines the Italian Gothic horror of the period, with an abundance of previously unpublished production information drawn from official papers and original scripts. Entries include a complete cast and crew list, home video releases, plot summary and the author’s analysis. Excerpts from interviews with filmmakers, scriptwriters and actors are included. Foreword by film director and scriptwriter Ernesto Gastaldi.

Deleuze and Horror Film

Daughters of Darkness (1971) is a vampire film like no other. Heralded as psychological high-Gothic cinema, loved for its art-house and erotic flavors, Harry Kämel's 1971 cult classic is unwrapped in intricate detail by writer Kat Ellinger to unravel the many mysteries surrounding just what makes it so appealing. This book, as part of the Devil's Advocates series, examines the film in the context of its peers and contemporaries, in order to argue its place an important evolutionary link in the chain of female vampire cinema. The text also explores the film's association with fairy tales, the Gothic genre, and fantastic tradition, as well as delving into aspects of the legend of Countess Bathory, traditional vampire lore, and much more. The book contains new and exclusive interviews with director Harry Kämel and actress and star Danielle Quinet.

Blood and Black Lace

For many horror film fans, the name Lucio Fulci conjures images of gore and depravity. Derided by critics as a hack and an imitator and lionized by others as the "Godfather of Gore," Fulci remains a polarizing and controversial figure. However, many fans are unaware of the scope and breadth of his filmography. From his early days writing material for popular comics like Toto and Franco and Ciccio to directing films in such genres as the musical and the Spaghetti Western, Lucio Fulci was a filmmaker of great diversity. When he attained international notoriety with the release of his gory epic ZOMBIE, Fulci already had years of experience in the film industry; that film's success established him as one of Italy's premier masters of the macabre and he would continue to shock and delight fans until shrinking budgets and falling health began to compromise some of his later work. When he died in 1996, he was on the cusp of a major comeback, but in the years following his death the cult surrounding his legacy has continued to grow. Unfortunately, most studies of Fulci and his work have elected to focus only on a small part of his career. SPLINTERED VISIONS changes all of that by providing an in-depth exploration of Fulci's filmography, beginning with his work as a screenwriter and extending through all of his films as a director. The popular horror films and thrillers are given ample coverage, but the lesser-known works are put into their proper context. Author Howarth provides a detailed portrait of a complex man using newly conducted interviews with actors such as Richard Johnson and Franco Nero, which allows the reader a sense of who the director was and how he worked. The end result is the most comprehensive overview of Fulci, the man and Fulci, the filmmaker that has been published in English--making SPLINTERED VISIONS a cause for celebration among serious Fulci fans. The book is also lavishly illustrated with a number of rare stills, posters and advertising materials.
Renegade Westerns

The Italian Gothic horror genre underwent many changes in the 1980s, with masters such as Mario Bava and Riccardo Freda dying or retiring and young filmmakers such as Lamberto Bava (Macabro, Demoni) and Michele Soavi (The Church) surfacing. Horror films proved commercially successful in the first half of the decade thanks to Dario Argento (both as director and producer) and Lucio Fulci, but the rise of made-for-TV products has resulted in the gradual disappearance of genre products from the big screen. This book examines all the Italian Gothic films of the 1980s. It includes previously unpublished trivia and production data taken from official archive papers, original scripts and interviews with filmmakers, actors and scriptwriters. The entries include a complete cast and crew list, plot summary, production history and analysis. Two appendices list direct-to-video releases and made-for-TV films.

The Book of Renfield

This book is the assembly of various texts that are freely available on the web, especially from Wikipedia. The next obvious question is: why buy this book? The answer: because it means you avoid having to carry out long and tedious internet searches (eleven different topics grouped in one book), but above all the pleasure of reading a paper book comfortably seated in an armchair. The topics are all linked to each other organically, and as a function of the subject and, in most cases, contain additional unpublished topics, not found on the web. Moreover, the inclusion of images completes the work so as to make it unique and unrepeatable. (Over 100 poster and film scenes)

This book includes all the crime films produced in Italy between 1968 and 1980–

Daughters of Darkness

"Once upon a time, in fact it was Tuesday," the Bear went into the woods to settle in for his long winter nap. But when he awoke what had happened? The trees were gone, the grass was gone, the flowers were gone, and in their place were buildings, cars, a fenced-off courtyard. The Bear had no idea that he was in the middle of a factory. "Get back to work!" a man yelled out of the blue. "I don't work here," said the Bear, "I'm a bear." The man laughed and laughed. "Fine excuse for a man to keep from doing any work—saying he's a bear." And so it began and so it went, with the Bear protesting his bearness all the way from the First, and no one willing to believe that he wasn't just a silly man in a fur coat who needed a shave. How the bear

Using Deleuze's work on art and film, Anna Powell argues that film viewing is a form of 'altered consciousness' and the experience of viewing horror film an 'embodied event'. The book begins with a critical introduction to the key terms in Deleuzian philosophy and aesthetics.
Dolce Morte: Vernacular Cinema and the Italian Giallo Film, Koven explores the history and evolution of this aspect of Italian popular filmmaking. He addresses various themes, motifs, and tropes in these films: approaching them as vernacular cinema—distinct from "popular cinema." According to Koven, to look at a film from a vernacular perspective removes the assumptions about what constitutes a "good" film and how a particular film is in some way "artistic." The giallo—a specifically Italian brand of lurid thriller—emerged in the 1960s and became a commercial force to be reckoned with throughout the 1970s. While not all of these films achieved the success and notoriety as the most popular efforts by the likes of Mario Bava, Dario Argento or Lucio Fulci, they nevertheless proved to be immensely popular—with latter-day entries emerging well into the 21st century. They also proved to be influential on films from across the globe; for instance, they helped to set the stage for the slasher movie boom of the late 70s and early 80s, and they would go on to inspire contemporary filmmakers looking to pay homage to their baroque excesses. So Deadly, So Perverse trilogy offers a final summation of the genre and its lasting cult popularity and appeal. In addition to in-depth coverage of an eclectic range of titles, there are also a number of deliciously sensational and exploitative images, many in full color. The Giallo Canvas

In the late 1950s, Mario Bava helped to create and define the Italian horror film. His classic directorial works of the 1960s and 1970s, including Black Sunday, Kill, Baby... Kill! and Lisa and the Devil, remain among the most colorful and imaginative in the history of the genre. Bava’s films are rife with unforgettable images—Barbara Steele’s uncanny beauty being brutally violated in Black Sunday, Christopher Lee returning from the grave marked by his bloody demise in The Whip and the Body, the angelic-looking ghost child of Kill, Baby... Kill!, the brutal murder scenes of Blood and Black Lace and Twitch of the Death Nerve—but they are also thematically rich and inter-connected. For many critics, Bava was a gifted stylist but few have bothered to look beneath the surface to uncover the deeper significance of his work. The Haunted World of Mario Bava was first published in 2002. It has now been updated, revised and expanded by author Troy Howarth to give a better overview of Bava’s remarkable legacy as a director and “cinema magician.” This new edition contains new contributions from Bava’s son, director Lamberto Bava, and genre icon Barbara Steele. The book examines all of Bava’s directorial works in detail while also providing a portrait of the man himself—a man for whom publicity and self-promotion was always shied away from, even as he continued to work himself to the point of exhaustion as he improvised with the most surprising and surprising ways. Covering titles produced everywhere from America and Great Britain to Turkey and Japan, this final volume in the So Deadly, So Perverse trilogy offers a final summation of the genre and its lasting cult popularity and appeal. In addition to in-depth coverage of an eclectic range of titles, there are also a number of deliciously sensational and exploitative images, many in full color.
